

## A No-Cost Benefit that Lets You Consult with a Cleveland Clinic Expert Physician from Home

Through Teva's health benefits, we are excited to provide you with a powerful digital health solution you can use at any time at no cost – Virtual Second Opinions by Cleveland Clinic.

With this service, you can have your medical diagnosis and treatment plan reviewed by an expert physician from the world-renowned Cleveland Clinic at **no cost, from the comfort of your home.**

- Draw on the expertise of 3,500 Cleveland Clinic specialists in over 550 advanced subspecialties
- Use only a phone, tablet, laptop, or computer
- It's fast, easy, and confidential

### How it works

- After registering online, you'll have an intake session with a Nurse Care Manager who will discuss your current diagnosis with you and match you to the right Cleveland Clinic expert physician.
- Next, we'll collect your medical records and test results on your behalf.
- Then, in about two weeks (sooner when medically indicated), you'll have a live discussion via phone or video call with your expert physician to review your opinion and ask any questions you may have.
- You'll also receive a written report detailing your second opinion.

You'll gain greater peace of mind as you become more informed about your health and more certain about your care.
